Dinner provided

To register, click [here](#) or scan QR code before April 3, 2023

Don't wait, capacity is limited!

Learn how to implement efficient digital dental workflows and deliver quality dental appliances in office and same day. Save time for your practice and patients, while reducing production costs.

LEARNING OBJECTIVES

+ Provide an Overview...

of the scan-to-print digital workflow for dental 3D in-office printing.

+ Demonstrate...

how the digital in-office workflow can help dentists deliver appliances while reducing costs and lead times.

+ Gain Understanding...

of available design services and materials for 3D printing.

 **SprintRay**
