

Cybersecurity and driving revenue through your CBCT

**3 CE
CREDITS**

What do you know about cybersecurity?
What are the risks? What should you be doing to protect yourself and your clinic?
Cybersecurity issues can happen to anyone, and not being prepared could be devastating.

Join us for a discussion on cybersecurity and benefits of having a CBCT

TOPICS AROUND USING A CBCT:

- + Managing raw file CBCT data in multiple implant planning and analyzing softwares
- + Benefits of an open system
- + Utilizing CBCT data for digital implant treatment planning

Thursday, April 25, 2024

6:00pm – 9:00pm

Delta Marriott

PRESENTERS

Nathan Woroniuk

Nathan, an IT solutions expert with expertise in cybersecurity, economics, and entrepreneurship, established WDit Business Solutions in 2010. With a proven track record of assisting small to medium-sized businesses in various industries, he brings a diverse skill set to bridge technological gaps and enhance operational efficiency. His focus on fostering meaningful business relationships enables him to offer valuable insights into optimizing operations for organizations of all sizes and sectors.

Dr. Kale Wudrich

Dr. Kale graduated from the University of Saskatchewan, completing his Doctor of Dental Medicine degree in 2015, and was awarded the gold medal for dentistry as the top graduating student. He completed a General Practice Residency program at the Royal University Hospital in Saskatoon, before moving to Halifax to complete a Masters in Periodontics at Dalhousie University. He became a Fellow of the Royal College of Dentists of Canada in the same year, and has worked as a periodontist in Quispamsis, New Brunswick. Kale opened Rumley Periodontics in 2019 in Saskatoon, Saskatchewan, specializing in soft tissue surgery, dental implants, and management of periodontal disease, and he is excited to be practicing back in his hometown.
