

# DRAUGHTS & DESIGN

How 3D Printing and Milling  
Continues to Transform Dentistry

Thursday, February 29, 2024

6:00pm – 9:00pm

**Sinclair Dental**

2611 Queensview Dr #110, Ottawa, ON K2B 8K2

**\$50(+tax)/Person**

Light refreshments provided

To register, click [here](#) or scan QR  
code before February 20, 2024

Don't wait, capacity is limited!

Sip on a tasty brew and learn how to implement efficient digital workflows and deliver quality dental appliances & restorations in the same day. Save time for your practice and patients, while reducing production costs.

## LEARNING OBJECTIVES

### + Provide an Overview...

of scan-design-print-mill digital workflow for the best workplace ROI.

### + Demonstrate...

how the in-office workflow can help dentists deliver appliances and restorative work while reducing costs and lead times.

### + Gain Understanding...

of available design services and materials for 3D printing and milling.
