Don't wait, seats are limited!

This seminar, designed for the general practitioner caring for pediatric patients, will enhance your confidence in treating young patients within your family practice, while delving into critical aspects of procedure and material selection. Through this evening of continuing education, participants will acquire the ability to identify and select appropriate procedures tailored to the unique needs of pediatric patients. They will also explore essential materials crucial for successful pediatric dental care, ensuring optimal treatment outcomes.

Learning Objectives

Upon completion of this training, participants will be:

- equipped to recognize and select appropriate procedures aligned with the specific needs and behaviors of pediatric patients;
- able to identify and utilize essential materials essential for pediatric dental care; and
- equipped to apply a patient-centered approach in procedure and material selection to ensure personalized care tailored to individual needs and preferences.

About the Speaker

Dr. Carla Cohn DMD

Dr. Cohn is a general dentist, devoted solely to the practice of dentistry for children. She maintains private practice at Kids Sleep Dentistry Winnipeg. Dr. Cohn has published several articles, webinars and live courses. She enjoys teaching and has done so both nationally and internationally. She teaches in the clinical undergraduate pediatric program at her alma mater, University of Manitoba, Gerald Niznick College of Dentistry. Dr. Cohn is proud to be an active member of several dental organizations, and has served as president of Manitoba Dental Association. She has been invited as a fellow to Pierre Fauchard Academy and International College of Dentists, and has been recognized as Dentistry Today's Leader in Continuing Education multiple years in a row, as well as Top 100 Docs.
