Lunch provided

To register, click [here](#) or scan QR

code before June 10, 2025

Don't wait, capacity is limited!

Learn how to implement efficient digital workflows and **discover how easy it is to deliver quality dental appliances and restorations in the same day.** Save time for your practice and patients, while reducing production costs.

## LEARNING OBJECTIVES

- + Provide an Overview...**  
of scan-design-print digital workflow for the best workplace ROI.
- + Demonstrate...**  
Hands-on guidance on how the in-office workflow can help dentists deliver appliances and restorative work while reducing costs and lead times.
- + Gain Understanding...**  
of available design services and materials for 3D printing.

**Derek Martin**

Strategic Relations Manager,  
SprintRay

**Justin Souyias**

Senior Territory Manager,  
3Shape
