Integrating intraoral scanning and 3D printing into your practice

Wednesday, May 15, 2024, 6pm–9pm
Pilot House

70 Grafton St, Charlottetown, PE C1A 1K7

Thursday, May 16, 2024, 6pm–9pm
Sinclair Dental

155 Chain Lake Dr Suite 10, Halifax, NS B3S 1B3

Cost: \$25 (+tax)/Person

Refreshments included.

Interested in 3D printing but not sure where to start?

This informative seminar, carefully designed for doctors, starts with some great wine tasting and refreshments, and then progresses into learning how intraoral scanning and 3D printing transforms dentistry, increases workflow efficiency, and delivers same-day quality dental appliances in your practice. Save time for your practice and patients, while dramatically reducing production costs.
